

OLYMP

Biography

Olymp are not a myth but pure heavy metal came true. With driving riffs in the tradition of the 80ies the four guys from Augsburg know how to move the neck muscles. Lightning fast twin leads, a growling bass, and the hammering of the thunder drums finally drag the last listener up to the Olympus.

Since 2018 Olymp emphasizes their ambitions to reach the Olympus of the metal gods by their longtime stage experience in former bands and Olymp until today, and the release of their anticipated self titled long player in 2023.

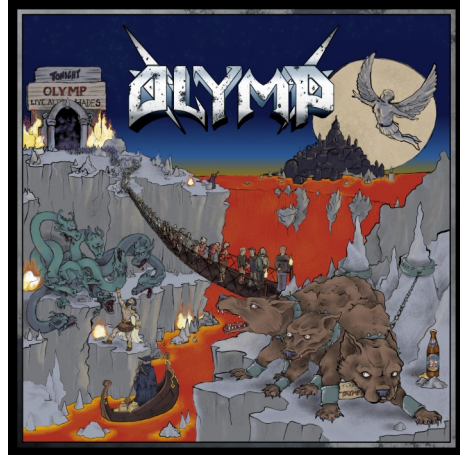

Line-Up

Sebastian Tölle (lead vocals, lead guitars)
Armin Feigl (lead guitars)
André Möbius (bass, backing vocals)
Dominik Rankl (drums)
